EDUCATION

Ph.D., Industrial Engineering and Operations Research

December 2021

Minor: Statistics

University of Missouri, Columbia, MO

- Advisor: Dr. Ronald G. McGarvey

M.S., Industrial Engineering and Operations Research

May 2017

University of Missouri, Columbia, MO

B.S., Industrial Engineering

December 2010

Azad University, Arak, Iran

EXPERIENCE

Graduate Research Assistant

February 2016 - present

University of Missouri, Columbia, MO

- Developing an optimization model to identify minimum cost-emission of generating bio-electricity
- Performed statistical analysis to estimate the impact of woody biomass demand on US forests
- Developed a Python API for accessing Forest Inventory and Analysis (FIA) database in parallel
- Conducted research and large data analysis for improving demand forecasting methods for Anheuser-Busch supply chain

Cyberinfrastructure Engineer

January 2020 - present

Research Computing Support Services, University of Missouri, Columbia, MO

- Install, configure, and maintain Linux systems in support of high performance computing (HPC)
- Consult with researchers on securing scientific workflows on a HPC cluster
- Provide documentation and training in the use of a HPC environment and associated software

Intern Research Assistant

June 2019 - August 2019

Resources for the Future, Washington, DC

- Collaborated to include biopower generation to the RFF's electricity market model
- Created a Python web scraping program to collect data for woody biomass availability across US

Industrial Engineering Operations Specialist

March 2016 - December 2016

EternoGen Aesthetics, Columbia, MO

- Built and maintained database for procurement and inventory management system
- Performed statistical analysis and collaborated to meet ISO 13485 compliance

Graduate Teaching Assistant

January 2015 - January 2016

University of Missouri, Columbia, MO

- Teaching assistant for several courses such as Eng. Statistic, Supply Systems, Energy Efficiency

COMPUTING

Python, R, Bash, SQLite, GAMS, Git, Slurm, Spack, Conda, Vagrant, Singularity, HPC Clusters, Linux Administration, Emacs, Markdown

PUBLICATIONS

- Mirzaee, A., McGarvey, R.G., Aguilar, F.X. et al. Multi objective optimization for identifying level of bioenergy generation in coal burning power plants (*in progress*).
- Picciano, P., Burtraw, D., Aguilar, F.X. & Mirzaee, A. Environmental and Socio-Economic Implications of Woody Biomass Use for Biopower Co-firing (*under review*).
- Mirzaee, A., McGarvey, R.G., Aguilar, F.X. et al. Impact of increased biopower generation on US forests (*under review*).
- Aguilar, F.X., Mirzaee, A., McGarvey, R.G. et al. Expansion of US wood pellet industry points to positive trends but the need for continued monitoring. Sci Rep 10, 18607 (2020).
- Mirzaee, A. & Awwad, M. Shortest path algorithm in the presence of polyhedral forbidden regions. in 67th Annual Conference and Expo of the Institute of Industrial Engineers 2017 (2017).
- Mirzaee, A. Alternative methods for calculating optimal safety stock levels. University of Missouri (University of Missouri-Columbia, 2017).

PRESENTATIONS

- Impact of increased biomass electricity generation on forest health, INFORMS Annual Conference, November 2020, virtual
- CO₂ Emissions reduction by identifying optimal level of co-firing biomass and natural gas in coal-burning power plants, INFORMS Annual Conference, October 2019, Seattle, WA
- Woody biomass use for biopower and its impact on forest resources, INFORMS Annual Conference, November 2018, Phoenix, AZ
- Shortest path algorithm in the presence of polyhedral forbidden regions, IISE Annual Conference, May 2017, Pittsburgh, PA
- Calculating optimal safety stock levels, CELDi Conference, October 2016, Columbia, MO
- Alternative methods for calculating optimal safety stock levels, CELDi Conference, April 2016, Atlanta, GA

ATTENDED WORKSHOPS

- GPN Workshop: Doing Genomics in the Cloud, June 2021
- XSEDE Workshop: Big Data and Machine Learning, August 2020
- XSEDE Workshop: Python and Performance, July 2020
- Spack Tutorial on AWS, July 2020
- PEARC Workshop: Building Better Scientific Software in Python, July 2020
- PEARC Workshop: Introduction to Numpy, July 2020
- PEARC Workshop: Deep Dive into Constructing Containers for Scientific Computing, July 2020
- XSEDE Workshop: Summer Boot Camp, June 2020
- XSEDE Workshop: MPI, May 2020

AFFILIATIONS AND AWARDS

- Software Carpentry Trainer
- XSEDE Student Champions
- Alpha Pi Mu, Industrial Engineering Honor Society
- Institute for Operations Research and the Management Sciences (INFORMS)
- Institute of Industrial and Systems Engineers (IISE)
- Graduate Professional Council, Student Affairs Committee, August 2015 - August 2016
- IMSE Travel Award (\$500), University of Missouri, October 2019
- Innovative Design Competition, 1st place award (\$1,500), IISE Annual Conference, May 2017
- Mizzou Advantage Graduate Award (\$600), University of Missouri, April 2017
- Outstanding IMSE Masters Student Award, University of Missouri, March 2017
- GIA Award Scholarship (\$10,000), University of Missouri, January 2017
