# ASHKAN MIRZAEE

### E3443 Lafferre Hall, Columbia, MO 65211

☑ amirzaee@mail.missouri.edu ♀ ashki23 ♀ ashki23.github.io

#### **EDUCATION**

# Ph.D., Industrial Engineering and Operations Research

May 2021

Minor, Statistics

University of Missouri, Columbia, MO

• Advisor: Dr. Ronald G. McGarvey

# M.S., Industrial Engineering and Operations Research

May 2017

University of Missouri, Columbia, MO

# B.S., Industrial Engineering

December 2010

Azad University, Arak, Iran

#### EXPERIENCE

#### Graduate Research Assistant

February 2016 - present

University of Missouri, Columbia, MO

- Developing a robust optimization model to identify minimum cost-emission of generating electricity by co-firing biomass and natural in coal burner power plants
- Performed linear and spatial panel regression analysis to estimate the impact of woody biomass demand on forest attributes in the Eastern US
- Developed a Python query system for large data analysis of the US Forest Inventory SQL data-sets
- Conducted research and large SQL data analysis for improving demand forecasting methods and minimizing inventory costs for Anheuser-Busch supply chain

### Cyberinfrastructure Engineer

January 2020 - present

Research Computing Support Services, University of Missouri, Columbia, MO

- Install, configure, and maintain multiple Linux systems in support of high performance computing in a scientific Linux environment for university researchers
- Secure and monitor systems and consult with researchers, and students on securing applications
- Provide documentation and training in the use of a shared high performance computing environment and associated scientific software

#### Intern Research Assistant

June 2019 - August 2019

Resources for the Future, Washington, DC

- Collaborated to include woody biomass to the RFFs Haiku electricity market model
- Created a Python web scraping program to collect large set of woody biomass data for running in Haiku model

# **Industrial Engineering Operations Specialist**

March 2016 - December 2016

EternoGen Aesthetics, Columbia, MO

- Built and maintained database for procurement and inventory management system
- Performed statistical analysis and collaborated to meet ISO 13485 compliance

# Graduate Teaching Assistant

January 2015 - January 2016

University of Missouri, Columbia, MO

- Teaching assistant for Engineering Statistic, Manufacturing and Supply Systems, Energy Efficiency and Natural Resources Policy courses
- Delivered lectures and discussions, conducted exams, and helped students with R programming

Curriculum Vitae Ashkan Mirzaee

### Computing

Python, R, Bash, SQL, GAMS, HPC Clusters, Linux Administration, Git, Emacs

#### **PUBLICATIONS**

• Mirzaee, A., McGarvey, R. G. & Aguilar, F. X. Multi objective optimization for identifying level of bioenergy generation in coal burning power plants. *in progress* (2020).

- Mirzaee, A., Aguilar, F. X. & McGarvey, R. G. Impact of bioenergy demand on US forest resources. in progress (2020).
- Mirzaee, A., Aguilar, F. X., McGarvey, R. G., Shifley, S. R. & Burtraw, D. Expansion of US wood pellet industry points to positive trends but the need for continued monitoring. *under review* (2019).
- Mirzaee, A. & Awwad, M. Shortest path algorithm in the presence of polyhedral forbidden regions. in 67th Annual Conference and Expo of the Institute of Industrial Engineers 2017 (2017).
- Mirzaee, A. Alternative methods for calculating optimal safety stock levels. (University of Missouri-Columbia, 2017).

#### PRESENTATIONS

- $CO_2$  Emissions reduction by identifying optimal level of co-firing biomass and natural gas in coal-burning power plants, INFORMS Annual Conference, October 2019, Seattle, WA
- Woody biomass use for biopower and its impact on forest resources, INFORMS Annual Conference, November 2018, Phoenix, AZ
- Shortest path algorithm in the presence of polyhedral forbidden regions, IISE Annual Conference, May 2017, Pittsburgh, PA
- Calculating optimal safety stock levels, CELDi Conference, October 2016, Columbia, MO
- Alternative methods for calculating optimal safety stock levels, CELDi Conference, April 2016, Atlanta, GA

# Honors and Awards

- IMSE Travel Award (\$500), University of Missouri, October 2019
- Innovative Design Competition, 1st place award (\$1,500), IISE Annual Conference, May 2017
- Mizzou Advantage Graduate Award (\$600), University of Missouri, April 2017
- Outstanding IMSE Masters Student Award, University of Missouri, March 2017
- GIA Award Scholarship (\$10,000), University of Missouri, January 2017
- Institute for Operations Research and the Management Sciences (INFORMS)
- Institute of Industrial and Systems Engineers (IISE)
- Alpha Pi Mu, Industrial Engineering Honor Society
- Graduate Professional Council, Student Affairs Committee, 2015
